Profile

My name is Jay Miller, I am looking for a front end developer position. I currently have a full stack certificate from University of Arizona. I also have certificates from Apple Inc. that consists of IOS and MacOS troubleshooting and repairs. I have an associates degree from University of Phoenix in web design. I am a hard worker and always searching to become better. I strive for perfection and looking forward to continue my growth. I read up on the new technology and how they work. I stride to always better myself and hopefully a team as well. I have worked for for Apple for four years and and have been promoted to leadership role based off of my skills and my strengths of making other grow around me.

TECHNICAL EXPERT, APPLE INC – 2016-PRESENT

Maintain customers' trust in Apple as the skilled expert, troubleshooting and repairing products. I use problem-solving and people skills to assure Genius Bar customers of swift resolutions to their technical problems. Educate team members about products, while independently keeping my own technical know-how up to date. Using customer service brilliance and empathetic nature, I provide Genius advice and support every day.

TECHNICIAN, GLOBALMED – 2016-2016

Train nurses on hardware equipment of mobile telecommunications systems. Building and helping with manufacturing of telecommunication systems.
